

I HAVE A CHANCE TO MAKE A BETTER LIFE FOR MYSELF AND MY CHILDREN

When Jeanice applied to the Transitional Housing program, run by Community Youth Services (CYS), her two children were living with their fathers as a result of Jeanice's drug use.

Wanting to regain custody of her children, Jeanice successfully completed in-patient drug treatment and transitioned into CYS housing. With the help of her case manager and support team, she was eventually allowed visitations with her children in her own apartment.

Although her life still has challenges, Jeanice is doing well. Today she is clean and sober, parenting both of her children, attending college, and helping to facilitate a weekly Narcotics Anonymous meeting. She looks forward to completing her education, working in a field she enjoys, and supporting herself and her children.

This is just one of the many great programs that you will invest in when you give to United Way's Community Care Fund. Every day, these programs are changing lives for people like Jeanice. Your donation to United Way matters!

THESE ARE YOUR SUCCESS STORIES.
